WIN JULLIE EIGEN SESSIE

Op een prachtige locatie in Nederland, gaan de winnende teams van de *Zero-Emission Logistics challenge* aan de slag met hun eigen **zone of genius** en **purpose**. De sessie bestaat uit:

Deel 1: Kennismaking: op een leuke en energieke manier elkaar leren kennen.

Deel 2: Introductie: wat gebeurt er in de buitenwereld en waarom is het zo belangrijk om vanuit je "zone of genius" te werken?

Deel 3: Aan de slag: neem je eigen situatie onder de loep. Leer waar jij van bent en waarmee jij het verschil maakt in jouw wereld.

Deel 4: Deel je ervaringen en krijg praktische handvatten om thuis mee aan de slag te gaan en je intenties te realiseren.

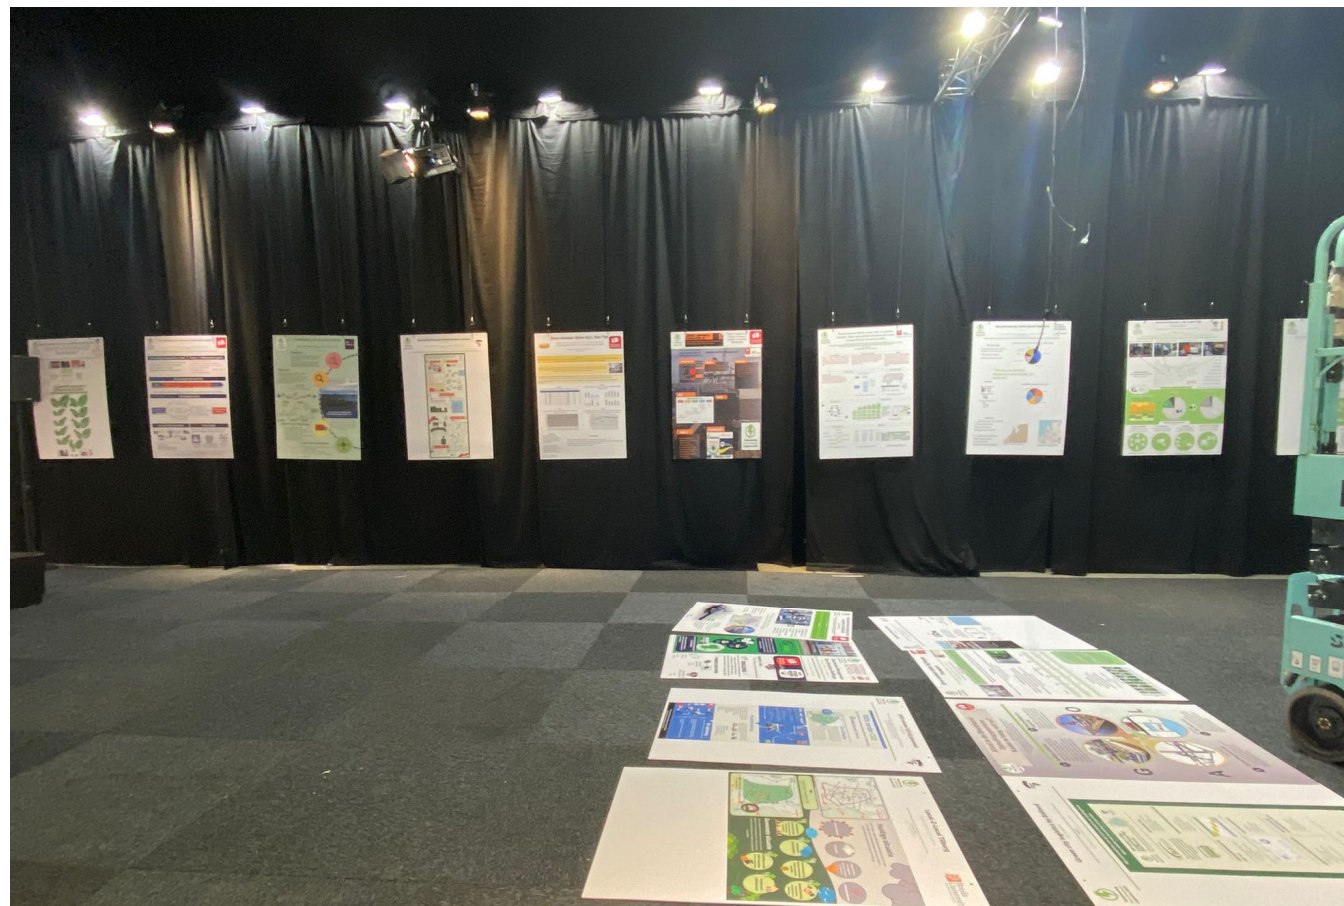

Tijdens de sessie serveren wij een smakvolle vegetarische lunch. De sessie duurt in totaal 4 uur.

For the finalists...

- ▶ Even after the challenge, you want to continue to contribute to a sustainable society. However, it may not be clear to you what role you want or can play. YOU have questions like:
- ▶ What does the world really need now?
- ▶ How can I contribute and make a difference?
- ▶ Where do I start, who can I work with?
- ▶ How can I link this to my studies and how do I prepare for my life after studies?
- ▶ How do I ensure that I do what I really enjoy and that gives me energy?

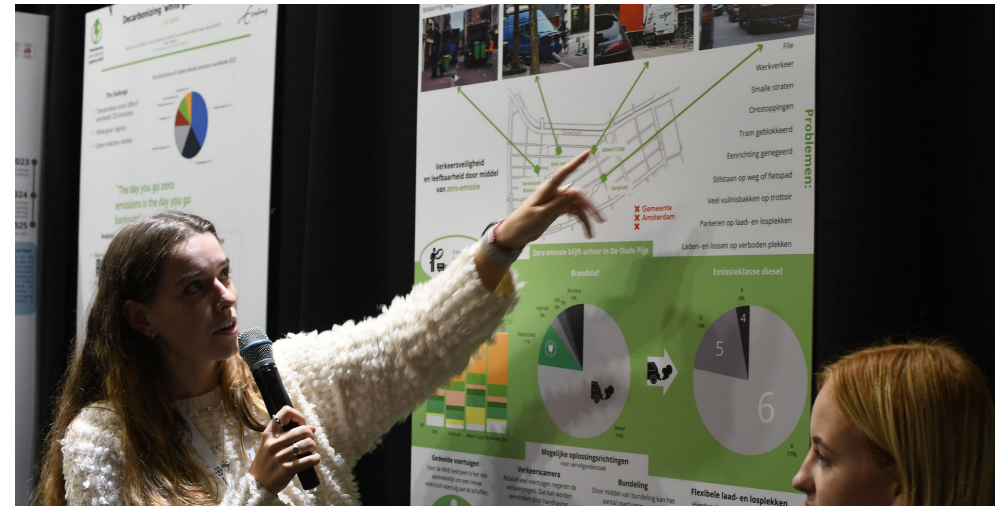

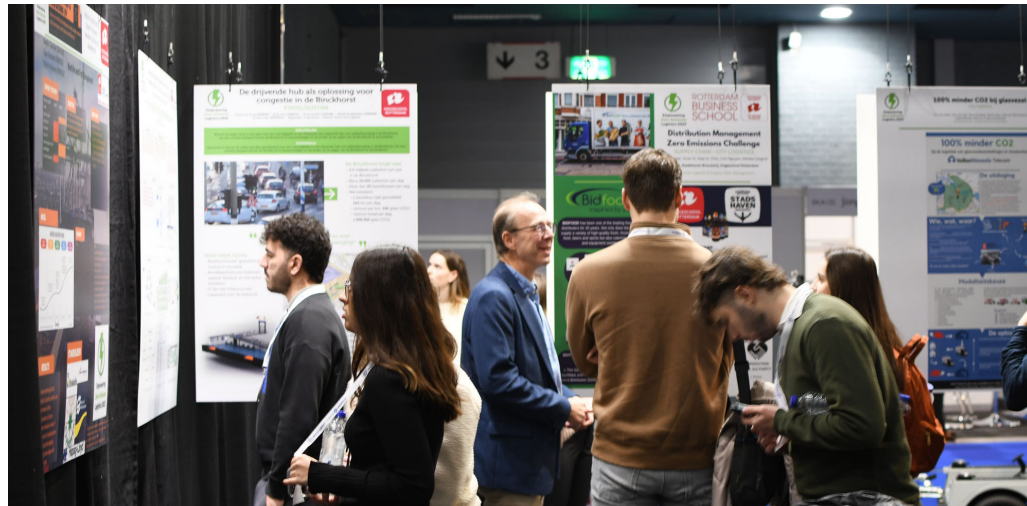

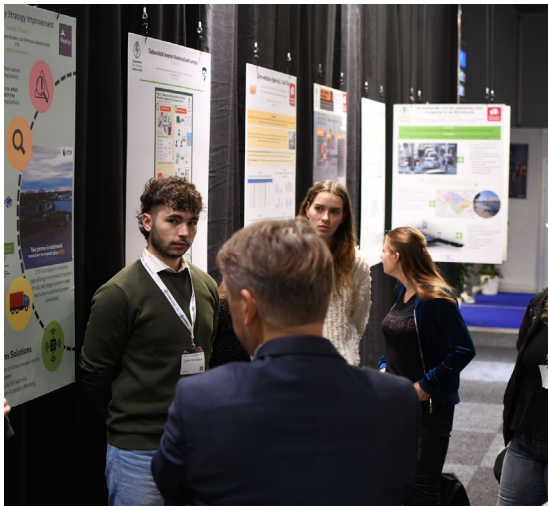

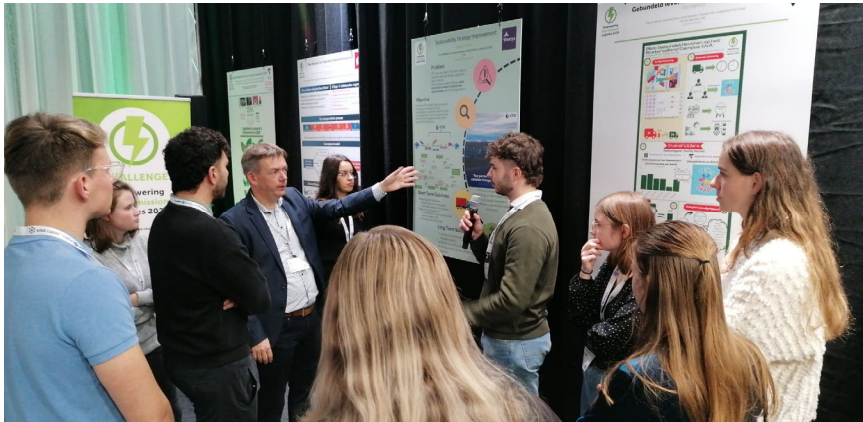

The 4 finalists
get the
opportunity to
follow a purpose
workshop

*) max 20 studenten
